

TexPURE E Series

Product Description:

TexPURE products are premium grade crystalline polyethylene made with a controlled particle size distribution and spherical shape.

Application:

TexPURE products are best suited for use as scrub and exfoliating agents in soaps and face, foot and body scrubs. They are also ideal for use as matting and texturing agent in nail enamel.

Features and Benefits:

-  Carefully Controlled Particle Size Distribution for Varying Degrees of Abrasiveness and Scrubbing Action
-  Suede-Like Feel
-  Easy Dispersion With High Speed Mixing
-  Compatibility With Vehicle Systems

INCI Name: POLYETHYLENE

Typical Properties	200E	300E	400E	500E	600E	700E
Appearance	Free-Flowing White Powder					
Particle Size Mean Value	50µm	65µm	80µm	110µm	130µm	140µm
Specific Gravity	0.93					

Regulatory Status:

The components of this product are listed on multiple chemical inventories. This product meets the requirements of 21 CFR 175.105, 175.300, 175.320, 176.170, 176.180, and 177.1520. For specific information on the applicable chemical inventories, please refer to the product SDS.
