

FluoroPURE 100C-RC

PTFE Powder

Product Description:

FluoroPURE C Series products are low molecular weight, polytetrafluoroethylene powders. This product is produced to be in compliance with EU regulatory requirements.

Application:

FluoroPURE C Series powders are an exceptional alternative to traditional materials for cosmetic and skin care formulations. They feature a unique hydrophobic surface that makes them ideal for both dry and wet compacts, emulsions, lotions, lipstick and more. They also are excellent process binders in powder make-up formulae.

Features and Benefits:

-  Exceptional Lubricating Properties
-  Enhanced Skin Feel
-  Even Application
-  Enhanced Adherence

Typical Properties:

 Appearance:	Flowing White Powder
 Specific Gravity:	2.15
 Particle Size Mean Value:	5 μ m

Regulatory Status

The components of this product are listed on multiple chemical inventories. For specific information on the applicable chemical inventories, please refer to the product SDS. This product complies with the Commission Delegated Regulation (EU) 2020/784 amending Annex I to POPs Regulation (EU) 2019/1021 (per Shamrock QSOP-202E).

Safety, Shipping and Handling
